THE PEACEFUL NURSERY

Preparing a Home for Your Baby with Feng Shui

LAURA FORBES CARLIN & ALISON FORBES

Editor's Book Pick:

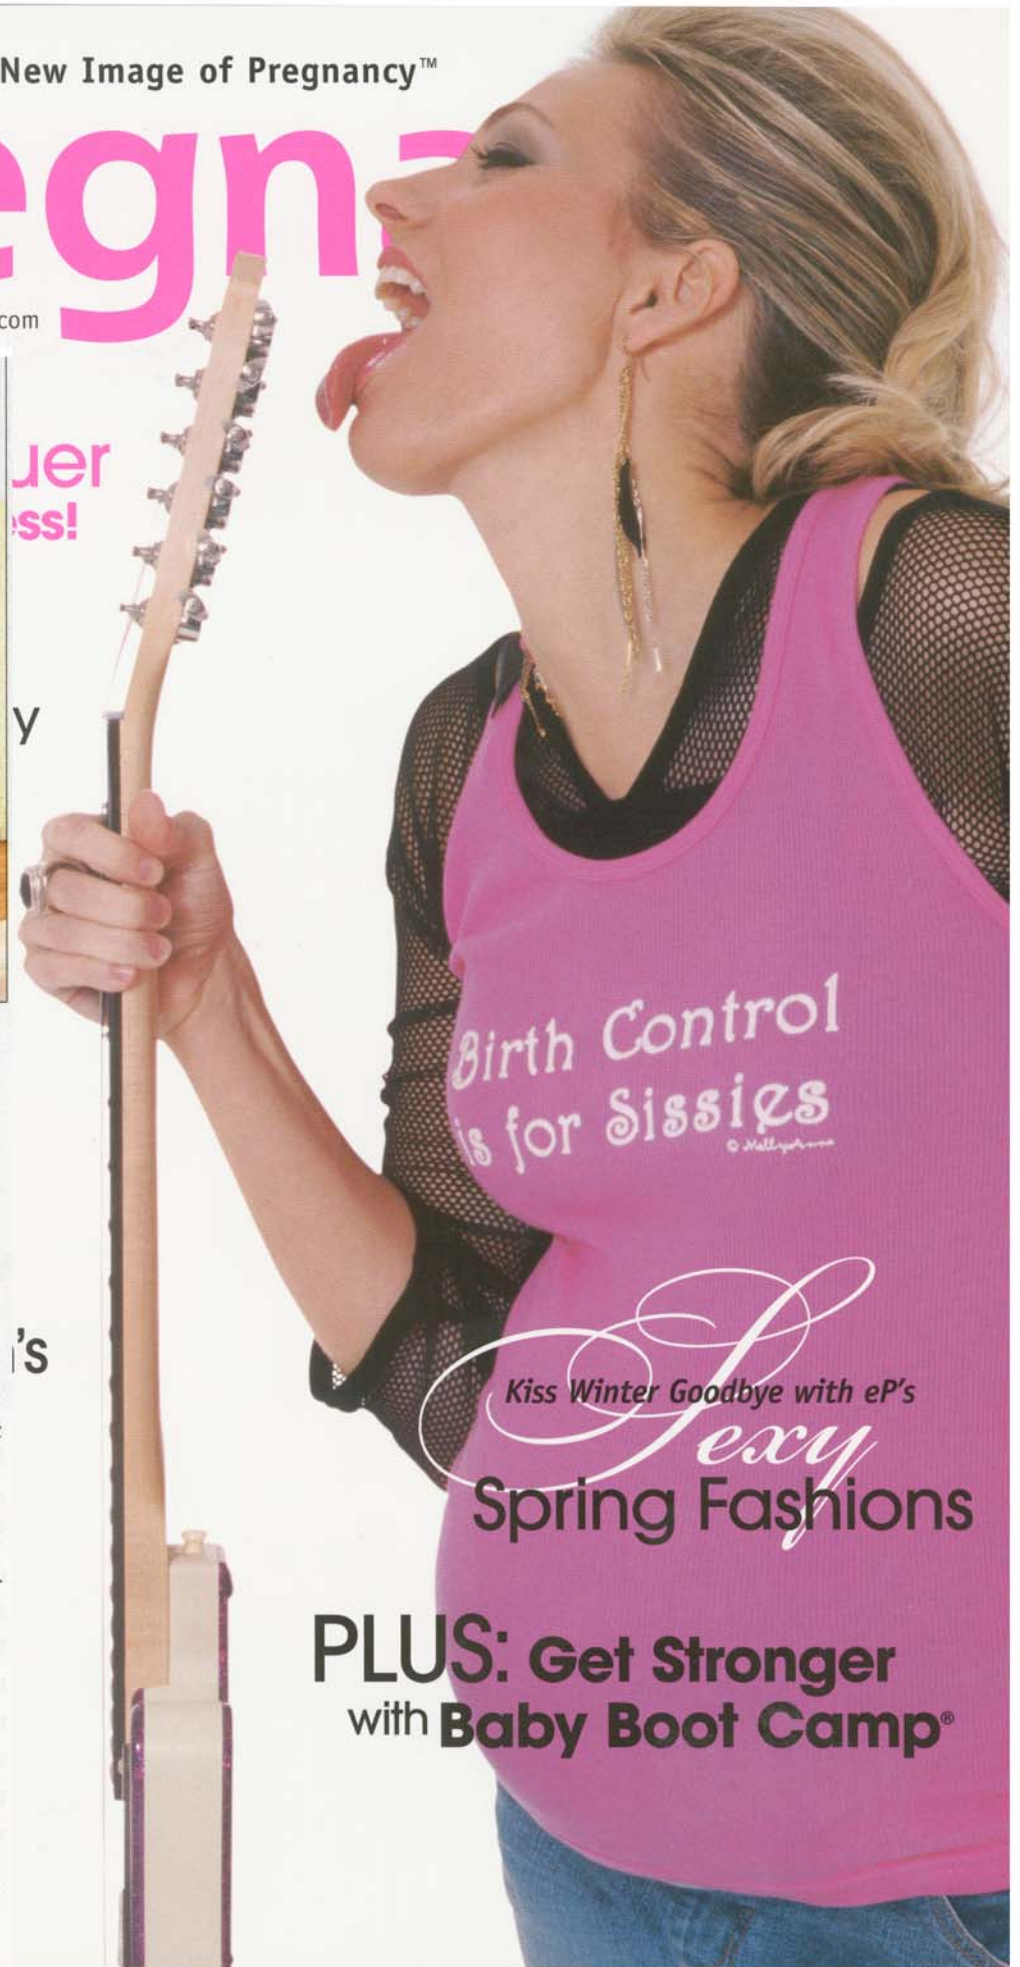

The Peaceful Nursery

Your baby's room should be pretty and practical, but what about peaceful? Lifestyle experts Laura Forbes Carlin and Alison Forbes believe your baby's nursery should be a nurturing haven for all that early morning and late-night bonding you'll soon be enjoying. In their new book *The Peaceful Nursery*, they apply the basic rules of decorating, Feng Shui and their own design-by-trial parenting experience to help you create a loving environment where you'll want to count toes, sing lullabies and, of course, share smiles. Since your home is a reflection of your lifestyle, and your baby's room is the heart of all you hold dear, surround yourself with harmony and joy. With the help of *The Peaceful Nursery*, create a serene sanctuary that's warm, inviting and healthy. We think that sounds like a perfect way to decorate.
